Unit 2 – COUNTING QUANTITIES, COMPARING LENGTHS *Counting and Measurement 1*	1 - 2	22 Approx. 36 days		**Report Card Objectives and Portfolio Pieces**
K.CC.A.1 Count to 100 by ones and by tens **K.CC.A.2** Count forward beginning from a given number within the known sequence. **K.CC.A.3 Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20** **K.CC.B.4 Understand the relationship between numbers and quantities; connect counting to cardinality.** **K.CC.B.5** Count to answer "how many?" questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1-20, count out that many objects. **K.CC.C.6 Identify whether the number of objects in one group is greater than, less than, or equal to the number of objects in another group, e.g., by using matching and counting strategies.** **K.CC.C.7** Compare two numbers between 1 and 10 presented as written numerals. **K.OA.A.1** Represent addition and subtraction with objects, fingers, mental images, drawings, sounds (e.g., claps), acting out situations, verbal explanations, expressions, or equations. **K.OA.A.2** Solve addition and subtraction word problems, and add and subtract within 10, e.g., by using objects or drawings to represent the problem. **K.OA.A.3** Decompose numbers less than or equal to 10 into pairs in more than one way. **K.OA.A.5** Fluently add and subtract within 5. **K.MD.A.1** Describe measurable attributes of objects, such as length or weight. Describe several measurable attributes of a single object. **K.MD.A.2** Directly compare two objects with a measurable attribute in common, to see which object has "more of"/"less of" the attribute, and describe the difference. For example, directly compare the heights of two children and describe one child as taller/shorter. **K.MD.B.3** Classify objects into given categories; count the numbers of objects in each category and sort the categories by count. **K.G.A.1** Describe objects in the environment using names of shapes, and describe the relative positions of these objects. **K.G.B.6** Compose simple shapes to form larger shapes. For example, "Can you join these two triangles with full sides touching to make a rectangle?	**1- COUNTING & REPRESENTING QUANTITIES** **2-COMPARING LENGTHS AND QUANTITIES**	1.1 – 1.10 2.1 – 2.12	Counting & representing quantities Counting & representing quantities Comparing and ordering quantities Understanding length	**K.CC.B.4** (Lesson 1.9 Inventory Bags Recoding Sheet) **K.CC.C.6** (Lesson 2.4 Grab and Count: Compare Recording Sheet)
